Because of the increasing global reliance on resources, the potential for conflict is often higher. A few years ago, an employee at the UN Special Political Representative (UNSR) office here in Tajikistan, told me that the resource-rich countries like Tajikistan need to find ways of diversifying their economies. “We have to find solutions, and the only solution that we have at hand is a diversification of the economy,” the UNSR employee said. “They all have to find new sources of income. They don’t have the ability to simply extract minerals from the ground, like we do here. They have to search for other sources of income.” This article will tell you how and why Tajikistan is becoming a new mining haven for mineral extraction and exploitation.Q: How to add button to uiview I have created a uiview and I want to add a button to that uiview when i click it it should navigate me to next screen. for this i have created a uiview and i have added a button to it. now how to navigate it when i click the button. i have tried this code but it doesn't work: `view.frame = CGRectMake(0, 0, 320, 100);` 2d92ce491b
