"No attire, no cell phones." Ten-year-old Abbie Fischer, a kindergartner at Alamo Elementary School, will be honored at the assembly. She has been a student in the school's Preschool Pre-K program for the past year and a half. Fischer's family immigrated to the United States from Hungary when she was about 4 years old, and they have been living in the Alamo area for more than 20 years. Fischer's sister, Mary Ann, 9, has been a student at the school since first grade. "She is a very sweet child, a very sweet little girl," Mary Ann said. "She has so much going for her, but she doesn't have a lot of friends." The girls' mother, Dawn, said they have been in the Alamo school system since they moved to the area. "It's been great," she said. "They have always done well there." A guidance counselor from the school will deliver the keynote speech at the assembly. • "We are going to have a few different stations with things to do," said Alamo Elementary School principal Dana Larsen. "There will be a balloon race, and there will be a contest for the kids to do different things." All of the students will be asked to wear their school colors, and the students will be divided into two groups — the yellow team and the blue team. Larsen said she anticipates this event to be one of the most memorable events of the school year. "They're going to have a parade, and we're also going to have a talent show," she said. "We're just trying to get them involved with the school." Stuart 2d92ce491b
